### **Awarding of a service agreement for:**

***Study on the scope and impact of official development assistance in Afghanistan in the period from autumn 2001 to autumn 2021, and here in particular Germany's contribution***

#### **1.1. About Rosa-Luxemburg-Stiftung**

Rosa-Luxemburg-Stiftung e.V. (RLS) is one of the six major political foundations in the Federal Republic of Germany, tasked primarily with conducting political education both at home and abroad. The Stiftung's work adheres to the legacy of its namesake, German socialist leader Rosa Luxemburg, and seeks to represent democratic socialism with an unwavering internationalist focus. The Stiftung is committed to a radical perspective emphasizing public awareness, enlightenment and social critique. It stands in the tradition of the workers' and women's movements, as well as anti-fascism and anti-racism. Rosa-Luxemburg-Stiftung e.V. is a registered non-profit organization in Germany. The Stiftung is closely linked to Die Linke, the German Left Party.

The aim of the work of Rosa-Luxemburg-Stiftung is to promote a critical analysis of society and foster networks of emancipatory political, social and cultural initiatives around Germany. Internationally, it will participate in cooperative development projects and advocate for a dialogue between the Global North and South conducted on equal footing. Like other political foundations, Rosa-Luxemburg-Stiftung seeks to develop and expand the concept of political education by emphasizing a critical analysis of society as our central task, further underlined by our namesake.

Based on the firm belief that social change requires a reflective confrontation with today's capitalist society as a whole, the Rosa-Luxemburg-Stiftung strives to develop alternative concepts and approaches for a comprehensive process of social transformation enabling the creation of a more united and just society. Education and training in democratic socialist politics, analysis, information and policy advice are therefore the Rosa-Luxemburg-Stiftung's basic tasks.

#### **1.2. Background**

The Geneva office of Rosa-Luxemburg-Stiftung was founded in 2019. It serves as the liaison office to the UN institutions in Geneva, but as well works thematically towards the issues of global social rights, socio-ecological transformation and transnational organizing.

This Call for Proposals for a Study on the scope and impact of official development assistance in Afghanistan in the period from autumn 2001 to autumn 2021, and here in particular Germany's contribution is being published in the context of RLS Geneva office aiming to continue its work on social rights, and here explicitly the right to peace.

#### **1.3. Aim of the service**

The RLS Geneva office is looking for a researcher for a three-month research project on the scope and impact of official development assistance in Afghanistan in the period from autumn 2001 to autumn 2021, and here in particular Germany's contribution.

The aim of the project is to gather information on the volume of official development assistance provided in the period from autumn 2001 to autumn 2021, i.e. the period of the military mission in Afghanistan, as well as to qualitatively assess the achievement of the objectives of the assistance. A special focus should be placed on European and especially German development cooperation in the region during this period.

The research project is intended to support the work of the office within the framework of the Social Rights Programme with regard to a human right to peace and equally to contribute to the evaluation of the fulfilment of SDG16 against the background of the war in Afghanistan.

Depending on the results, we would like to use the project to evaluate the military operation as such and to develop alternative policy options for future conflict scenarios.

It is crucial to approach these questions from a left perspective that at least questions the necessity of military operations by starting from the best possible solution to the respective conflict and then developing adequate options for action on this basis. These should aim at the peaceful development of the respective conflict region and, above all place the overcoming of structural causes of conflict at the centre.

The proposal must include a review of research methods, preferably focusing on a literature review and a series of possible interviews representatives of international organisations, civil society organisations and/or policy experts as well as local actors. In particular, the role of development actors must be central.

#### **1.4. Tasks, contract duration and scope**

- What evaluations already exist regarding the parallelism of military operations and the use of development aid? How is the civil-military cooperation that existed in some of the projects being evaluated?
